

OBJECTIVE

With solid experience as a frontend developer, I have developed strong leadership skills and excellent adaptability. My proficiency in HTML, CSS, JavaScript, Angular, and React.js allows me to create intuitive and high-performance user interfaces. Accustomed to collaborating with designers and backend developers, I ensure seamless integration of features. Capable of managing multiple projects simultaneously, I meet deadlines while maintaining high quality. I am eager to join your company to contribute to its success with my skills and passion for information technology, and I am available for an interview.

SKILLS

- Working in a team using Agile methodologies such as SCRUM or KANBAN.
- Designing solutions using Figma.
